Re: February 22, 2022 Flights on American Airlines and American Eagle for Minor Son (4 years old) Mask Exemption (Record Locator QXONHP)

Dear Mr. Seklecki:

This letter will confirm that American Airlines, Inc. has granted a conditional exemption to your four year-old minor son – Michael, Jr. – to fly on February 22, 2022 on American Flight No. 1526 from Miami International Airport (MIA) to Washington Reagan National Airport (DCA), and connecting on to Manchester-Boston Regional Airport (MHT) via American Flight 5283 (operated by PSA Airlines d/b/a American Eagle) – Record Locator QXONHP. The flight is scheduled to depart MIA at 5:20 p.m., Eastern Standard Time, with the second leg scheduled to leave DCA at 10.10 p.m., Eastern Standard Time, and to land at MHT at 11.42 p.m., Eastern Standard Time.

This mask exemption for your son is conditioned on your providing a negative COVID-19 test result– PCR or antigen –on behalf of your son in order for your son to fly on AA Flight Nos. 1526 and 5283 on February 22, 2022. The negative test must have been taken within 72 hours of departure of your initial flight on February 22, 2022, and the test result must be provided to American Airlines at check-in for the MIA-DCA leg of the flight.

This letter must be kept in your possession during travel as proof of your son's exemption and may be requested by TSA, or airport or airline personnel. To increase safety measures while traveling, we do ask that, if it is possible, you and your son pre-board the aircraft and get comfortably situated before other passengers begin to board.

In addition, American Airlines will permit your son to travel on other domestic American Airlines flights within the next 30 days (from February 16, 2022 to March 18, 2022), without wearing a mask, provided that the negative COVID-19 test for your son that was taken within 72 hours of departure is given to American at check-in, as stated above.

Dallas, Fort Worth Airport, TX 75261-9616
Email: Peter.Soares@aa.com

In the event that Michael Jr. chooses to travel on any future flights after March 18, 2022 with American Airlines, it will be necessary for you to book the flight and request that American Airlines grant a new mask exemption for Michael Jr. **no later than seven days prior to scheduled departure.**

Finally, with regard to your own request for a mask exemption, American has considered your documentation and completed exemption application form. Based on guidance from our third-party medical provider, American must inform you that you do not qualify for an exemption. As such, American cannot transport you if you will not be wearing a mask.

Thank you for flying with American.

Yours truly,
